

Enabling Profitable, Ecologically Resilient, and Equitable Farm Businesses

FarmRaise is a tech-driven solution that ensures:

- **Farmers** find, and apply to, the most appropriate grants and loans in a timely way;
- **Lenders** and investors are equipped with due diligence packages that are accurate, complete, and delivered quickly;
- **Food Companies and Agribusinesses** can differentiate themselves by connecting FarmRaise to farmers in their supply chains.

FarmRaise works with farmers to unlock a comprehensive suite of capital to overcome farmer-specific challenges

Farmer capital needs finding

1

"Eligibility quiz" to gather information regarding farmer capital needs

2

Technology-enabled analysis of funding program options

3

Follow-up questions to fill in information gaps for likely funding sources

Farmer capital needs and eligibility profile

Capital provider relationship building

Commercial and government lenders (e.g. Farm Credit, FSA)

Impact investors (e.g. Iroquois Valley, Perennial Fund, SLM Partners)

Grant and cost share providers (e.g. NRCS)

Applications to a suite of relevant funding sources

For us, it all starts with the farmer:

- We're a **mission driven company** dedicated to helping farmers thrive.
- We keep farmers up-to-date on funding programs so they **never miss a funding opportunity**.
- We make the lending and grant application as **painless** as possible so farmers can get on with...farming.

We have 1,000+ farmers (farming an average 300 acres) and 300 funding programs on the platform. We are a team of 7 with backgrounds in farm operations, engineering, impact investing and consulting. And we are eager to partner with you!
