

Hull trucks: When coming from I-380 S, take exit 19 B for 1st Ave W. Keep left at the fork (stay straight) to continue on L St SW and then take a right onto 5th Ave SW. When coming from I-380 N, take exit 19 A toward US 151. Merge onto 3rd St SW and then take a left onto 5th Ave SW. From 5th Ave SW, turn left onto 10th St SW. Take a right on 12th Ave and then stay straight to cross over the railroad tracks and onto the Cargill site. After the parking lot, stay right and follow the road to the scale where you will weigh in. Stay straight leaving the scale and then make a u-turn at the end of the bins so you are driving between the plant and the railroad tracks and into the loading area. After loading, you will loop around the bins to go back to the scale where you weighed in. Leave the site following the same path you took for loading, and leave the plant through where you entered on 12th Ave.
