

Meal & hull trucks: When coming from the West, take the second left into the Cargill site. When coming from the East, take the first right, just after the Pilgrim's Pride feed mill entrance. When arriving, check in with the guard via CB radio. After passing over the railroad tracks and then the guard shack, take a right. After passing the maintenance building on your left, follow the road left. Take another left to drive parallel to the railroad tracks and into the loading bay. After loading, turn left out of the bay and then left again after the small bins. Take a right to exit the facility using the same road you entered on.
